TOWN OF BON ACCORD

REQUEST FOR DECISION

Meeting: Special Meeting of Council

Meeting Date: October 23, 2024

Presented by: Falon Fayant, Corporate Services Manager

Title: 2025 Budget Presentation

Agenda Item No. 5.1

BACKGROUND/PROPOSAL

At the October 15, 2024, regular meeting of Council, Deputy Mayor Larson moved that Council directs administration to present an interim operating and capital budget for 2025. Resolution #24-428.

In previous years, Council has approved the final operating and capital budgets and final operating plans and capital plans by December 31st of the current calendar year.

DISCUSSION/OPTIONS/BENEFITS/DISADVANTAGES

Administration has recommended passing an interim operating and capital budget for 2025, and then the final budget prior to passing the 2025 taxation rates bylaw. Per the MGA, the final budget must be passed before tax rates are approved.

Final property assessment values are not released until the end of February, and grant funding, such as LGFF operating funds, depends on the provincial government budget, which is not passed until the new year. The benefit of passing an interim budget now is that we will know the impact of assessments and possibly the impact of grant funding prior to presenting a final budget and, therefore, be in a better position to plan. As well, given the unforeseen situation with the microgeneration credits, this has created an additional budget challenge for 2025.

An interim operating budget is not used to set definitive property tax rates; it is used as the authority to provide services, programs, and overall business continuity per Section 248 of the MGA. Council can further use it to justify setting all municipal utility rates for the subsequent year. An interim operating budget ceases to have any effect when the final operating budget and taxation rate bylaw are adopted.

Attached to this RFD is the interim 2025 operating and capital budget. The presentation includes the following:

- Review of Council's Strategic Plan
- ➤ A brief discussion of long-term strategy
- Budget challenges and drivers impacting the 2025 budget
- Municipal services
- Wages & contributions information
- Department budget breakdowns
- Utility billing comparisons following the water, wastewater, and waste collection departments.
- > 2025 draft interim budget summary
- ➤ Tax comparisons between Bon Accord and the surrounding municipalities, including Towns, cities, and Counties
- ➤ 2025 interim budget information, which includes budget items that have already been removed and items that could still be removed.
- Capital projects
- Reserve information

Within the budget discussions during this meeting, administration can add/remove further amounts from the 2025 interim budget information that Council deliberates to determine the impact on percentages and the projected impact on the municipal tax levy (assuming assessments remain the same).

Strategic Plan - Priorities

Priority #1 - Economy: The Town of Bon Accord is committed to achieving steady growth through residential, commercial, and industrial development.

Priority #2 -Community: The residents of Bon Accord live in a safe, connected, and attractive community.

Priority #3 - Infrastructure: The Town of Bon Accord is maintaining and improving all infrastructure in a fiscally responsible manner.

Priority #4–Identity: Bon Accord has a strong, positive identity as an environmentally progressive, family-oriented, welcoming community.

Priority #5 - Collaboration: The Town of Bon Accord has strong, sustainable relationships to enhance municipal programs and services.

Long Term Strategy

The Town is still in the phases of long-term planning and considering funding strategies.

Council and administration continually review the operating and capital requirements list and consider utilizing tax revenue, grants, and surplus funds. Major infrastructure projects include road reconstruction, storm management, and the Town of Bon Accord arena.

Long-term funding strategies can include utilizing available reserves and grant funds and implementing a tax planning strategy to replenish reserves over time.

Operational long-term strategies can allow for steady sustainability and growth by managing inflation while maintaining service levels and replacing aging infrastructure.

The Town's revenue sources include taxes and user charges, grants and donations, sponsorships, and reserves.

Budget Challenges & Drivers

- The main challenge affecting this budget year is the cost of power. The decrease in the market pool price for microgeneration is causing lower solar power credits.
- Increase in gas prices.
- Steady rate of inflation in goods and services. The current rate of inflation in Alberta is 2%.
- Continued increases in insurance. The current estimate for this interim budget is a 10% increase.
- Large cost of RCMP funding for a small community. \$87,843 (2024 cost as the 2025 cost has not yet been released.)
- Aging infrastructure and increased maintenance costs.
 - Balancing multiple infrastructure replacement priorities such as road projects, stormwater management, and the arena (e.g. matching funds available for grants).
- Reductions in provincial grant funding. Provincial funding has decreased by 70% since 2017. The Local Government Fiscal Funding grant is starting to increase in small amounts but is still not at the 2017 level. For example, MSI in 2017 was \$605,994 and is projected to be \$422,612 in 2025.
- Other grant funding is highly competitive, and many have eligibility requirements such as matching funds.
- Limited sources of revenue such as tax revenue, grants, donations or sponsorships, investment, franchise fees, and user fees such as utilities, arena ice rentals, tax certificates, etc. Revenue is mainly for cost recovery to balance the budget to zero.
- Balancing act between costs and revenue to maintain service levels and replace and repair aging infrastructure.

Municipal Services

Services provided by municipalities impact the quality of life. These services are value received for taxes, rates, fees, and charges.

These quality-of-life services are supported by key capital infrastructure and assets.

Services include water, wastewater, storm management systems, garbage collection, parks and recreation, fire, bylaw, and road maintenance.

These services "promote and improve our quality of living."

Inflation, grant reductions, limited revenue sources, and aging infrastructure needs impact taxes, utility rates, fees, and charges. These costs are necessary to maintain service levels, quality of life, long-term sustainability, and growth.

Services = Quality of Life

Quality of Life = Taxes, Utility Rates, Fees & Charges

Wages & Contributions

One of a municipality's most significant assets is trained and knowledgeable staff to deliver programs and day-to-day services to residents and maintain essential infrastructure.

Employee compensation and adjustments are related to SERVICE EXCELLENCE.

The current projected 2025 FTEs (Full-time equivalent staff) is 16.17.

This includes 14 FTEs and 2.17 seasonal/temporary staff.

2024 Budgeted FTEs was 16.07.

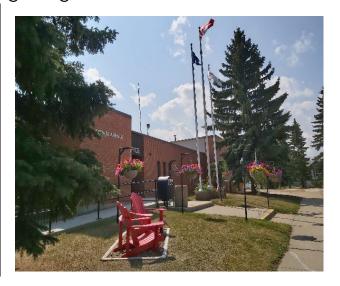

- Total Wages & Salaries (including Council) for 2025 is \$1,533,865.
- Total wages and salaries (including Council) for 2024 were \$1,434,658.

INTERIM Wages & Contributions Changes projected for 2025:

- The Health & Safety Advisory contract position was previously under contracted services in emergency management; this position had to be moved to staff, casual in 2024 and is continued under staff, casual in 2025. (4 hours per week).
- Given the current inflation, the initial projected interim budget includes a 2.5% cost-of-living adjustment for staff and council.

For comparison, other municipalities in the local area will be presenting the following COLA adjustments to Council during budget deliberations:

MUNICIPALITY	COLA PERCENTAGE
Gibbons	2%
Morinville	2 - 3%
Redwater	2 - 3%
Sturgeon County	2.5%
Legal	2 - 2.5%
Bruderheim	2.5%

SERVICE EXCELLENCE

Administration and Council strive for the highest standard of service delivery and governance.

Trained, experienced, & competent staff = Service Excellence

- Annual merit raises help with the retention of staff.
- Recognize staff for accomplishments and high-quality customer service.
- Foster staff well-being and promote health, safety, and morale.
- The Town can be an employer of choice and maintain high-quality staff.

Council & Election

The 2025 Projected Council Interim Net Budget is (\$132,848), and the Election Interim Net Budget is (\$5,050).

The Council & Election 2025 interim budget changes:

- Bill 20 training requirements for Council following the municipal election.
- Municipal election training & supplies.
- Elector register list software \$3,500 as required under Bill 20.

The Council 2025 interim budget includes the following:

- Fees and per diems for each councillor and the meetings and networking opportunities they attend.
- EOEP training courses.
- Mileage and registration for meetings, conferences, golf tournaments, and parades.
 - This year's Federation of Canadian Municipalities Conference is in Ottawa.
- Council workshop.
- Cell phones (Mayor's contract through Bell Mobility and \$20 monthly allowance for each Councillor's personal cell phone use.
- Insurance allocation.
- Parade candy and council supplies.

Water

The 2025 Projected Water Interim Net Budget is (\$152,115).

The Water 2025 interim budget change includes:

 Water purchases - the commission is projecting a decrease in the rate to \$1.55/m3 from \$1.6125/m3. Given the water department's deficit, lowering the water rate is not recommended. The best-recommended practice is full cost recovery for utilities.

The Water 2025 interim budget includes the following:

- Revenue, which includes sales of water and penalties.
- Bulk water sales.
- Staff training for certifications.
- Utilities telephone, power, gas.
- Flowpoint service charges for bulk water customer transactions.
- Munisight GIS services allocation.
- Office equipment lease allocations.
- Parts for repairs and maintenance.
- Water meters and mxu's.
- Reservoir debenture payments.
- Transfer to reserves, including capital rate rider.

Capital Rate Rider

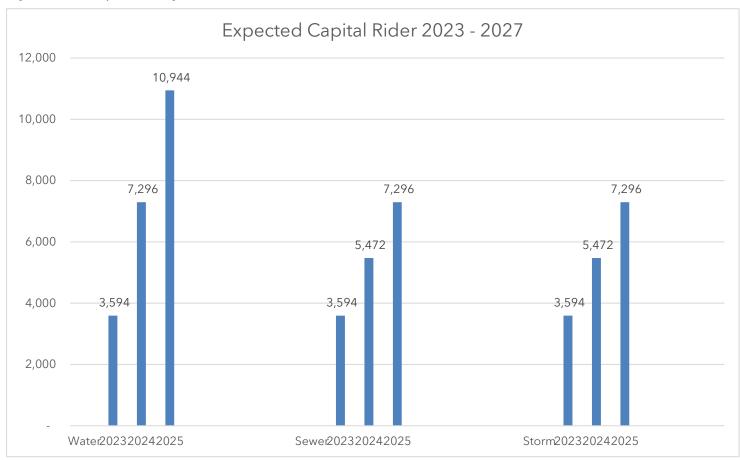

In 2023, a capital rate rider was introduced to utility billing to help add to reserves to save for key infrastructure. The fee was \$0.50 per resident for water and \$1.00 per resident for sewer, half of which was allocated toward storm management.

The idea was to continue a small increase per year for continual, additional revenue growth towards key infrastructure. A proactive versus reactive strategy.

The 2024 budget increased the capital rate rider to \$1.00 per resident for water and \$1.50 per resident for sewer, half of which is allocated toward storm management.

The 2025 budget could either maintain the capital rate rider at current rates or increase by another \$0.50.

Per the graph below, an increase to the rate rider of \$0.50 would increase the reserves collected for water by 50% and the reserves collected for sewer and storm by 33%, respectively.

Waste Collection

The 2025 Projected Waste Collection Interim Net Budget is (\$33,910).

The Waste Collection 2025 interim budget changes include:

- Changes to the GFL collection agreement due to recycling moving to EPR (extended producer responsibility) in April. The current agreement expires in 2026 and includes a 2% CPI yearly increase.
- Costs related to recycling will no longer be the municipality's responsibility beginning April 2025.
 - Cost savings are expected to be approximately \$10,880 for 2025, which has been transferred to a reserve.

The Waste Collection 2025 interim budget includes the following:

- Revenue, which includes waste collection sales.
- Office equipment lease allocation.
- Contract charges for waste collection.
- Landfill charges.

The benefit of passing an interim operating and capital budget now is that we will know the impact of assessments and possibly the impact of grant funding before presenting a final budget in the new year. Therefore, there is the opportunity that some of the above items, though they have been removed in the interim, they remain important to services and operations, and therefore, some items may still be able to be added back.

The following are suggested items that may have a material impact that Council could still consider removing from the budget to lower the budget percentage increase.

Reserves

Many municipalities have a Financial Stabilization Reserve, the purpose of which is defined as a contingency fund for emergent, non-recurring expenditures or revenue losses that will not be built into the operating budget in future years. The reserve also provides funds to smooth future property tax increases during periods of high inflation, revenue or expense volatility, and fluctuations in operating activities.

The Town's Financial Reserves Policy #23-309 has the General Reserve, and the purpose is defined as: To provide funding for non-recurring/one-time operating expenditures or transfers to capital that will not be built into the base-operating budget in future years. The application is defined as: Funds from this reserve can be used for increased or unplanned operating costs or for transfers to capital. The intention of this General Reserve is similar to that of a Financial Stabilization Reserve. It can be used to mitigate tax levy increases due to unforeseen operating costs or losses of revenue.

The current balance of the General Reserve is \$799,681.

Should Council choose this route, it must be noted that this should not be viewed as a long-term strategy. This reserve is for unforeseen situations, such as the decrease in solar microgeneration credits expected in 2025 due to market pool pricing. Plans should be put in place to replenish funds so as not to deplete reserves, and plans should also be considered for the future economic state.

FINANCIAL RESERVES POLICY

SECTION: Administration

DEPARTMENT: Corporate Services

COUNCIL APPROVAL DATE: July 4, 2023

POLICY STATEMENT

The Town of Bon Accord recognizes that the ongoing commitment of funds to specific reserves provides contingency funding for operating and capital expenditures and can reduce the need for debt financing.

PURPOSE

To establish and approve reserves annually and ensure consistency and transparency for the management and reporting of existing reserves and the establishment of new reserves. The Town of Bon Accord will manage the annual allocation of reserves in a fiscally responsible manner.

DEFINITIONS

"Council" means the Mayor, Deputy Mayor, and members of Bon Accord Council.

"Town" means the Town of Bon Accord.

"Town Manager" means the Chief Administrative Officer as appointed by Council, or the Chief Administrative Officer's designate.
