In 2023 the Town will receive \$43,915 versus the originally expected \$42,481 and will subsequently receive \$44,393 in 2024 and 2025. As FCSS is an 80/20 program, this also increases the Town's portion from \$10,621 to \$10,979 and to \$11,098 in 2024 and 2025. As the Town historically contributes more than 20%, there should be no issues with this increase in funding.

TOWN OF BON ACCORD
REQUEST FOR DECISION

Meeting:	Regular Council Meeting
Meeting Date:	August 15 th , 2023
Presented by:	Jodi Brown (Town Manager)
Title:	Communities in Bloom Request for Flag Project Approval
Agenda Item No.	6.1

BACKGROUND/PROPOSAL

During the July 04th, Regular Council Meeting, representatives from the Bon Accord Communities in Bloom group presented their request to place a Communities in Bloom flag in the flower bed in front of Centennial Park.

Administration has enclosed the proposed drawing of the location of the 20-foot flagpole.

DISCUSSION/OPTIONS/BENEFITS/DISADVANTAGES

The Communities in Bloom group has confirmed that the flag would only be in place during the summer/fall months (May – September) and would not be lowered during this time as this flag is not an official provincial or federal flag.

Additionally, the Veteran's Park Memorial Committee has agreed to provide a flagpole to the CiB Committee for this purpose when the new flagpoles are placed in the Veteran's Memorial Park. Note, the flagpoles that the Town would like to order for Veteran's Memorial Park are out of stock until 2024. If the Communities in Bloom group can defer their project until 2024, it would save the cost of purchasing a flagpole.

Note, there is no requirement for a development permit to place a flag in Centennial Park.

STRATEGIC ALIGNMENT

Value Statement: Collaboration

- Discussion is welcome from all levels of government, neighbouring municipalities, residents and businesses of the Town, the place we call home.

Priority # 05: Collaboration

TOWN OF BON ACCORD
REQUEST FOR DECISION

Meeting:	Regular Meeting of Council
Meeting Date:	August 15, 2023
Presented by:	Falon Fayant, Corporate Services Manager
Title:	Reallocation of MSI Funding
Agenda Item No.	7.3

BACKGROUND/PROPOSAL

At the July 4th Regular Meeting of Council, Council approved the Stormwater Management proposal from Magna Engineering and the application for funding from the Federation of Canadian Municipalities, which included the approval of matching funds of \$35,000. These matching funds are to be sourced from the MSI Operating Grant. Resolution #23-304.

The 2023 MSI Operating Grant allocation is \$119,284. Typically, the grant is around \$59,642, however this year the government doubled the allocation to municipalities.

The original expected amount of \$59,642 was allocated in the 2023 budget to bylaw, roads, and water; \$35,000 has been allocated to the stormwater management study as per Resolution #23-304, leaving the remaining funds of \$24,462 requiring allocation.

DISCUSSION/OPTIONS/BENEFITS/DISADVANTAGES

Administration has identified two areas of need to allocate the funds towards.

1. Muniware Software Conversion provided from Catalis.
 - a. Since converting from our previous software program, Winfin, which was outdated, to iCity in 2019, we have identified multiple system inefficiencies and difficulties in customer service. The issues identified include but are not limited to:
 - i. A simple process that should take one or two steps, takes multiple time-consuming steps.
 - ii. Because of the way the system is designed, if issues are identified they require lengthy analysis to determine the cause and solution, and often require multiple steps to correct.
 - iii. This past year, a system error occurred with the way that iCity integrates with our utility Sensus water meter information. This resulted in an error that cost the Town \$63,000. Customer support

was unable to help and also unable to properly explain how their system identifies our meters.

- iv. The cash receipts program is inefficient due to poor integration with Sensus as well. iCity needed to add 3 additional digits to our utility accounts, but these digits are not in the Sensus software. We were told iCity was fully compatible with Sensus.
 - v. The system is also meant to import online payment data from the banking systems to further improve our efficiency, however because of iCity's poor integration with Sensus this function does not work for us.
 - vi. Customer support is poor. Administration must often follow up on cases/tickets for issues that are seemingly being ignored or have not been responded to. Sometimes we receive no solution at all.
 - vii. The system is slow due to the remote desktop access, it is not user-friendly, and lacks training resources for support.
- b. Catalis is offering Muniware with all the financial modules that we currently have, and they are including modules that we currently do not have access to in iCity:
- i. Business Licensing (currently we use Excel)
 - ii. Animal Licensing (currently we use Excel)
 - iii. Cemetery (currently we use a combination of Word, Excel, and Munisight)
- c. Catalis also owns Munisight, which the Town also uses, and therefore Muniware can integrate into Munisight. This would be useful for improving cemetery management.
- d. Catalis is also offering the Town their EGov system with the package, which is an online customer service tool. Residents can set up their own account and log in to view their account activity and information, including copies of recent bills.
- e. Administration has completed an in-depth consultation with Catalis and references from other municipalities to determine that Muniware is more user-friendly, efficient, integrates better with our utilities and other programs, and has better customer service support than iCity.
- f. Catalis has their offices located in Edmonton, and the consultants we have been communicating with have over 20 years of experience in local municipal government.
- g. While the Town did contribute \$26,014 to the iCity conversion in 2019, we have learned from the multiple issues with the software the right questions to ask Muniware support and municipal references who have been using the system for many years. As well, while we have implemented controls as best as we can, there is no guarantee that another \$63,000 iCity system error will not occur again.

2. The Sensus handheld water meter reading requires replacement. It has been operating slowly and inefficiently, and often reporting errors or missing reads for sections of the Town. Public works has tried replacing the battery and performing updates, but the technology has simply become outdated.
 - a. The other option would be to convert to a different handheld meter reading system, however that would require replacement of all the meters in Town and would not be cost-effective.

STRATEGIC ALIGNMENT

Priority #3: Infrastructure: The Town of Bon Accord is maintaining and improving all infrastructure in a fiscally responsible manner.

Values Statement of Stewardship: Administration and Council embody the responsible planning and management of our resources.

COSTS/SOURCES OF FUNDING

The cost of the Muniware software conversion is \$14,750. This includes the data conversion and training.

Please note there are yearly software licensing and support costs which are comparable to those of iCity (\$15,500 year 1, \$16,430, year 2, \$17,415 year 3, \$18,460 year 4). These software costs are a yearly expense already included in the annual budgets and is an expected cost whether the Town would be using iCity or Muniware.

The cost of a new Sensus handheld meter is \$16,608.24.

The MSI Operating funds can be used towards both items, \$14,750 towards the Muniware conversion, \$9,712 towards the Sensus handheld meter, and the remaining \$6,896.24 can come from the Water Contracted Services/Maintenance contingency.

RECOMMENDED ACTION (by originator)

THAT...Council approves the allocation of \$14,750 of MSI Operating Funds to the Muniware conversion and \$9,712 towards the purchase of the new Sensus handheld meter.

TOWN OF BON ACCORD
REQUEST FOR DECISION

Meeting:	Regular Meeting of Council
Meeting Date:	August 15, 2023
Presented by:	Jessica Caines, Legislative Services & Communications Coordinator
Title:	Bylaw 2023-09 – Repeal of Bylaw 259
Agenda Item No.	8.1

BACKGROUND/PROPOSAL

Bylaw 259 was passed in 1990. This bylaw allowed Alberta Local Authorities Reciprocal Insurance Exchange (ALARIE) Attorney in Fact Ltd. power of attorney privileges for the Town of Bon Accord for the ALARIE Agreement.

What is A Reciprocal Insurance Exchange?

A reciprocal insurance exchange is a not-for-profit business structure for an insurance company in which members (subscribers) are also the owners of the company. To become a member of a reciprocal insurance exchange, subscribers enter into an agreement stating that they will contribute to fund the losses of the other subscribers in the exchange. If the loss within the year is less than expected, subscribers may receive dividends, or the surplus can accumulate for future years.

Management of a reciprocal insurance exchange is performed by an Attorney-In-Fact (AIF) who makes decisions for the company. This attorney also oversees an advisory committee and manages operations in the company including administration, underwriting, and sometimes claims management.

DISCUSSION/OPTIONS/BENEFITS/DISADVANTAGES

The Town of Bon Accord has insurance through Alberta Municipalities (AMSC) which has set up their own reciprocal insurance agreement (see page 5 of the following document: <https://www.ogilvielaw.com/wp-content/uploads/2019/02/Presentation-ALARIE-19-Sep-2016.pdf>). In the spring of 2017, the insurance license was cancelled (page 35), and on September 15, 2017, ALARIE was dissolved in a court ruling (<https://rmalberta.com/news/court-decision-issued-regarding-alarie-distribution/>). For more information on the structure of AMSC reciprocal insurance, please see the attached FAQ document from Alberta Municipalities.

For the above reasons, administration recommends the repeal of Bylaw 259.

Insurance & Risk Management Services “FAQ”

General Insurance Program Orientation

1. Who are we?

AMSC Insurance Services is a fully owned subsidiary of AUMA. AUMA is a not-for-profit advocacy organization created to help Alberta municipalities with their political advocacy efforts. All AMSC business services are designed to support AUMA member needs with products tailored to municipalities and community support groups.

2. How are we different?

Since we are owned by AUMA, there are no shareholders to satisfy. We work for the benefit of our members like you. We are not motivated to increase profits by selling more insurance products. Our focus is to provide insurance solutions that help you protect your balance sheet and ensure continuity of operations. Our mandate is to support Alberta communities.

3. How are we compensated?

All of insurance policies have either a fixed percentage of commission, a flat fee or combination of both. These are used to cover our direct operating expenses and support the AUMA.

4. What type of insurance products do we offer?

We offer almost all types of general insurance products commercially available elsewhere. Our most popular insurance products are Property, Liability, Automobile, Crime, Cyber Liability, Directors & officers Liability, and Pollution Liability, which are bundled together as a package to keep costs low. We also offer stand-alone specialty policies such as Event Liability, Aviation, Facility User Liability, and project-specific solutions for your major construction or infrastructure projects.

5. How does AUMA offer competitive insurance products and pricing stability?

We are a bit unique. We have developed a large insurance program for the benefit of our members which consists of a combination of insurance policies underwritten by MUNIX and commercial insurers. Property, Liability and a portion of automobile insurance is underwritten by MUNIX. We then use commercial insurers to build the program with various types of insurance coverages to support MUNIX. Premiums paid into MUNIX by its participants pay for claims. Any surplus remaining is invested to maintain the financial strength of the pool, enhance the coverage or paid to members as premium credits to offset unexpected premium increases that may happen in the program from one renewal to the next. Given this cooperative nature, each participant plays a direct role in the long-term success of MUNIX and the overall AUMA general insurance program by reducing their losses and managing their risks responsibly. Think of us like a co-operative or a credit union, it's the same concept.

6. What is MUNIX?

MUNIX is an alternative form of conventional insurance. The key difference is in the ownership and governance. In the case of commercial insurance, the insurer is generally a for-profit company that anticipates a return for its shareholders. In the case of MUNIX, it is owned by its like-minded participants called "subscribers", who pool their resources together to "self-insure". Essentially, by participating in MUNIX, you are agreeing to "insure" your fellow subscriber.

Given this cooperative nature, each participant plays a direct role in the long-term success of MUNIX and the overall AUMA general insurance program by reducing their losses and managing their risks responsibly. Think of us like a co-operative or a credit union, it's the same concept.

7. What is a 'Subscriber'?

Think about how you would join a co-operative. You complete an application, pay a small membership fee and become a co-op member to enjoy benefits offered by the co-operative. Our application process requires you to sign a MUNIX subscriber's agreement which explains your roles and responsibilities and how the insurance pool operates, what each other's legal requirements are and how the pool will conduct its business. MUNIX does not have an enrollment fee, however an AUMA membership in good standing is required for the duration of your MUNIX subscription.

8. How is MUNIX managed?

All insurance pools are regulated in Canada through the Office of Superintendent of Insurance in accordance with the Insurance Act for their respective province. The Insurance Act refers to pools as *Insurance Reciprocal Exchanges* and defines how its affairs are to be managed. The AUMA reciprocal, MUNIX, is governed by the MUNIX Board of Directors to oversee the activities of the Reciprocal along with a MUNIX Principal Attorney who represents the interests of subscribers to the Board.

9. I am a subscriber of MUNIX; what if I wish to leave?

You may leave MUNIX by providing 1-year written notice of withdrawal. A withdrawal notice must be provided before January 1st for you to leave the following year.

Examples:

- i. If you provided notice on Dec 15, 2021, you are required to continue for policy term of Jan 1 - Dec 31, 2022 and can leave effective Jan 1, 2023.
- ii. If you provided notice Jan 2, 2022, you are required to continue for policy years 2022 and 2021. You can leave us effective Jan 1, 2024.

10. Is it normal to have a 1-year withdrawal notice?

Yes. Insurance Reciprocal pools were designed for long-term service to its subscribers. Most Reciprocal pools require anywhere from 1-5 years notice for withdrawal. This measure is necessary to ensure financial stability of the pool for fellow subscribers who depend on it to pay their claims. Some Reciprocal pools also have a waiting period to rejoin. Although MUNIX does not have a waiting period restriction, please

remember that rejoining does not waive the withdrawal notice requirement, if you decide to leave again.

11. Do we offer insurance to commercial entities?

The AUMA general insurance program was designed to support Alberta Municipalities and Community-Related Organizations. Therefore, the insurance program is not generally offered to commercial entities at this time.

12. How can I be part of the AUMA insurance program?

3 steps:

- i. Be a member of AUMA;
- ii. Become a subscriber of the MUNIX insurance pool; and
- iii. Provide us with operational information about your entity. This information will be used to underwrite your entity for eligibility and pricing in the AUMA Insurance program.

Title:	Rescinding of Policies
Agenda Item No.	8.2

BACKGROUND/PROPOSAL

The Extreme Weather Policy was passed in March 2020 to establish safety guidelines for recreation programs and Town events in the event of extreme weather to ensure the safety of staff, volunteers, and participants.

The Working Alone Policy was passed in May 2019 to establish procedures and processes of limiting risk and harm for employees who may be required at times to work alone.

DISCUSSION/OPTIONS/BENEFITS/DISADVANTAGES

Extreme weather and working alone both fall under our existing Health and Safety Policy, as do all our safe operating procedures. These two policies have little substance (see attached); internal procedures are better suited to address our needs in these areas. Therefore, administration recommends rescinding both the Extreme Weather and Working Alone Policies to allow necessary safety precautions and procedures to fall under the existing Health and Safety Policy.

Ms. Jodi Brown
Chief Administrative Officer

Dear Ms. Brown:

Subject: Municipal Accountability Program Cycle 2

As you may know, the Municipal Accountability Program (MAP) was initiated in 2018 to collaboratively foster effective local governance and build administrative capacity in Alberta's municipalities. Municipal Accountability Advisors review municipal processes and procedures to develop and enhance knowledge of mandatory legislative requirements. Through these efforts, Municipal Affairs supports Alberta municipalities with legislative compliance, and Chief Administrative Officers (CAOs) are able to confirm areas where the municipality is doing well and receive guidance on areas for improvement.

The first cycle of the program is complete, with 210 municipalities participating in a MAP review from 2018-22. The program is mandatory for municipalities with populations of 2,500 or less and may be offered to any municipality upon council request, if approved by the Minister.

I am pleased to advise Municipal Affairs is initiating the second cycle of the MAP in conjunction with continued support for municipalities to complete their remaining action plans for legislative compliance from Cycle 1. Your municipality is not included in the schedule for the 2023 program year; however, as a municipality with a population of 2,500 or less, Municipal Affairs will schedule a review within the five-year cycle between 2024 to 2027. As in the first cycle of the program, municipalities will be notified of their scheduling in advance of their review.

To ensure MAP continues to provide value to program participants and to the Ministry, the review areas in Cycle 2 have been expanded to include discretionary areas within the *Municipal Government Act*. During a MAP Cycle 2 review, the program team will work with you as the municipality's CAO to highlight the municipality's progress made through MAP Cycle 1. Additionally, the program team will assist in identifying areas to review and identify discretionary legislative provisions that apply or are likely to apply to your municipality. In your role as CAO, you will also be invited to identify other areas of focus for inclusion in the review.

Subject: Fenced off leash dog park

There are many large dogs in Bon Accord, and I have been talking to some of the larger dogs' owners, and we feel that a fenced, off leash area would be beneficial. Our household owns two of them. We have been yelled at for walking them on leash, and the dogs have been teased by a few people while they were in our fenced yard to a point that they barked and growled. We lost one smaller large dog about 4 years ago due to poisoning because the dog was barking. Our older dog does very little barking and our 2-year-old wears a bark deterrent collar most of the time. We feel that if we had a safe place to let the dogs run off leash so they could get exercise and be socialized with other people and dogs it would be of great benefit to noise control. I understand that many small dog owners would feel hesitant to let their small dogs loose with a big dog loose. To combat that complaint a schedule could be instated that large dogs get 3 days a week, small dogs get 3 days a week and one day could be a day to get large dogs and small dogs to be socialized with each other and if someone felt uncomfortable it would be an understanding that that day they could elect to stay home. I understand having this area in a populated area is not feasible, and I suggest it be set up in an area where there is no human population. Since I don't know where the boundaries of Bon Accord are I would leave it up to you to find the space.

I do hope you take this letter under serious consideration.

Thank You. Anne Sicard
